Toxics Use Reduction Achievements by Massachusetts Manufacturers

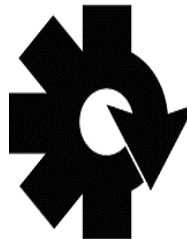

Environmental Affairs Secretary Ellen Roy Herzfelder, House Minority Leader Brad Jones and the Massachusetts Office of Technical Assistance will salute environmental achievements in toxics use reduction made by Massachusetts manufacturers.

Program will include:

- **Government officials discussing the environmental and economic benefits of Toxic Use Reduction (TUR) and its impact on Massachusetts businesses**
- **An expert in green chemistry education speaking on the importance of adopting greener practices in the manufacturing process**
- **Representatives from Massachusetts facilities sharing their TUR success stories**
- **A technology exhibit showcasing the achievements and successes of local companies in using cleaner manufacturing**

**Monday, May 9, 2005
10:00 AM - 12:00 PM
Nurses Hall, State House**

- Continental breakfast will be served -
